We are urging you to not stifle competition in business and urge you to reject petition 04-160. XM is providing a very valuable service to our countries truck drivers. Their system is many times updated faster than any local station as far as traffic and weather go. They should not be penalized for offering a service that helps in moving the goods in this country. I HOPE YOU CAN SEE THE PROBLEMS WITH THIS PETITION AND REJECT IT LIKE IT SHOULD BE. Sincerely,
Darren and Elizabeth Heller
